A frontend and AI engineer who has owned products end to end — planning through operation. I define problems by watching where the product is actually used, solve them with the web and LLMs, and check in the numbers that it helped.

EXPERIENCE

AimBe Lab

2025.07 — Present

Associate, full-time · SaaS planning · Frontend · AI integration

- My Feed** — digitised a farm ordering system and cut the AI classification error rate from 10% to 3%.
- Raised weekly visit frequency from 2–3 to 4 through GA4-driven improvements.
- Rebuilt the investor site into a B2B platform: SEO on Next.js RSC, with i18n written in-house.
- Designed a three-tier RBAC dashboard and built the GitHub Actions CI/CD pipeline.

The Innovators

2025.03 — 2025.06

Intern · Technical research

- StartupQT** — implemented the modular editor and review workflow for a quiz-authoring SaaS.
- Containerised with Docker and built a zero-downtime CI/CD pipeline.
